

## **EFAITH**

EFAITH, the European Federation of Associations of Industrial and Technical Heritage launches a summer campaign on *the European heritage of transport and travel* - asking associations and volunteers to put the spotlights on and to organise activities to highlight the immovable, movable and tangible heritage of road, canals and harbours, railways and air transport - and the way they linked European regions, towns and citizens  
see: <http://www.industrialheritage.eu/EYCH2018/July-August>

The campaign includes a call to draw a European list of harbour and railway cranes - where the oldest examples too often are scrapped  
see: <http://www.harbourcranes.eu>

PS - you can follow us on Twitter at @EFAITH2015 and please retweet our #EYCH2018 and #EuropeForCulture messages
